

A division of DACEM S.A.C.

Ingredients sourced at origin. Supply chains managed on the ground.

Sourcing, quality coordination and ingredient supply from Latin America.

DACEM Ingredients helps international buyers identify suppliers, assess capabilities and coordinate food ingredient sourcing. Based in Peru, we connect your purchasing requirements with suppliers and processing partners at origin.

YOUR REQUIREMENTS. LOCAL COORDINATION.

A point of contact across supplier selection, technical documentation, processing and shipment follow-up. Designed for ingredient importers, food manufacturers, distributors and sourcing teams.

TWO WAYS TO WORK WITH DACEM

Sourcing partner

We identify and assess supply options and coordinate the agreed activities on your behalf. You may purchase directly from the selected supplier.

Ingredient supplier & exporter

We supply the ingredient as your commercial counterpart and coordinate sourcing and export execution under an agreed quotation and contract.

INGREDIENT FOCUS

White, red, black & tricolor quinoa • Chia • Amaranth / kiwicha • Cañihua

Conventional and organic options are assessed by ingredient, supplier and destination. Additional ingredients and Latin American origins can be evaluated on request.

A division of DACEM S.A.C.

From sourcing brief to shipment follow-up.

01 Origin sourcing

Supplier identification, availability checks and commercial sourcing aligned with your ingredient, volume, timing and destination.

02 Supplier qualification

Review of supply and processing capabilities, technical documentation and relevant credentials. Site assessments coordinated when required.

03 Quality verification

Specification and COA review, sample coordination, agreed laboratory testing and traceability documentation follow-up.

04 Processing coordination

Follow-up with partner facilities on cleaning, optical sorting, sieving, polishing and packing, as applicable to the ingredient.

05 Supply chain coordination

Production and packing follow-up, export documentation support and coordination with logistics providers through shipment.

Processing is carried out by partner facilities. Certifications and documentation are checked for the relevant supplier, facility, product and scope; they are not presented as DACEM-owned credentials.

Discuss your sourcing requirements

Share your ingredient, specification, volume, destination and target delivery date.
